BODIES

Of Two Deputy United States Marshals Found in the Ashes

Of Moonshiner's Rendezvous.

The Supposed Murderer was Wanted on a Charge of Counterfeiting Money--A Day's Record of Startling Tragedies.

Oxford, Miss., Nov. 18.—John A. Montgomery, deputy United States marshal pro tem. of this city, and Deputy United States Marshal Hugh Montgomery of Pontoloco, left here Saturday for the purpose of arresting Will Mathis, an alleged counterfeiter and moonshiner, who lives 12 miles east of this place. Montgomery's horse was found standing at the gate of Oak Hill, a neighbor of Mathis, and Mathis' house burned to the ground. Upon further investigation two partially burned bodies were found in the ashes of the burned building, which have been identified as the remains of the deputy marshals. John A. Montgomery's horse has not been found, and it is supposed that Mathis made his escape on this horse after the men had been killed and the house set on fire. Mathis' wife was at her father's, a few miles from her burned home, and she says she and her husband left home Saturday, her husband leaving the county. Mathis was indicted last summer for making and passing counterfeit money and was out of jail on a \$2,000 bond. The principal witness against him was a negro living in the same neighborhood. About a month ago the negro was assassinated. The two Montgomerys went to arrest Mathis for making high whisky, and it is supposed they were prevented upon to remain for the night and were shot while guarding their prisoner.

Forgery Charged.
New York, Nov. 18.—O. B. Wheeler, Jr. was arrested on charge of forging the names of Chicago business men to notes aggregating \$103,990, was arraigned in police court. An attorney who appeared for him told the magistrate that his client was, in his opinion, suffering from the excess-

sive use of some drug, and that he was now mentally unbalanced. Wheeler had the air of a prosperous business man. He is of small stature, quite bald, and wears a beard. Sergeant Price said that the Chicago police had been communicated with and that Mr. Purlington was now on his way east and would be on hand in the court Tuesday to tell what he knows of the case. Dr. Ward will also be on hand, according to counsel, and state to the court that in his opinion Wheeler is mentally unbalanced and not responsible for his actions.

Savannah, Ga., Nov. 18.—The body of S. T. Baker, a Confederate veteran from Beaufort, S. C., was found in Colonial park. The man had been murdered. He had collected \$300, which, however, he had turned over to his employers. The body was robbed of a watch, chain and other valuables, and the pockets were turned wrong side out, and there was evidence of a struggle.

Quaffed a Fatal Draught.
Minneapolis, Nov. 18.—Mrs. Sarah Nordeman, who, with her son, Knute George Nordeman, attempted suicide Saturday by taking morphine, is dead. The son is still in the hospital, with prospects of recovery, although his mind is seriously deranged. He raved constantly about his desire to leave this world, as he believes himself too good to live here.

Fatal Fall.
Hopkinsville, Ky., Nov. 18.—Dennis Pattillo, the 19-year-old son of J. H. Pattillo of Bennettsburg, was standing up in a wagon driven by his brother John when a sudden jolt threw him out backward on his head. When the brother reached him he was dead. His neck was broken.

Police
Officer Charged With the Murder
Of Lena Renner, the Evansville, Indiana, Girl,
Who Was Found Dead in a Ditch on Slaughter Avenue, in That City Last Week—Evidence is Circumstantial.

Special by wire to Times-Democrat.
Evansville, Ind., Nov. 18.—Wilbur S. Sherwell, a police officer was arrested here this morning by coronor John P. Walker, and formally charged with the murder of Lena Renner, the beautiful girl, whose dead body was found face down in a ditch on Slaughter avenue last week. The case against Sherwell is purely circumstantial, but coronor Walker and his deputy, Matt Perry, have woven a net of incrimination about him that will require the strongest possible alibi to break down.

Madman on a Train.
Indianapolis, Nov. 18.—Passengers on the Big Four southwestern limited, which reaches this city from Cleveland at 11:30 a. m., were terrorized by an insane man, who got on the train some miles out of Cleveland and became violent. The conductor, S. F. Engle of this city, and several of the train crew, attempted in vain to quiet him. Passengers left the car, and going into other coaches demanded that the doors be locked so that the man could not enter. A porter and a brakeman were put in charge of the man and did what they could to prevent the man from demolishing the furniture of the car. He was removed by force from the train at Union City by the marshal.

Move Against Insurgents.
Colon, Colombia, Nov. 18.—The Colombian gunboat General Pinzon sailed here from Savanilla with troops. In view of the unchanged conditions on the isthmus this evidence of the government's policy to reinforce its forces here gives cred-

ence to the presumption that General Carlos Alban, military commander of this district, has finally resolved to lead a strong attacking force against the insurgents within his jurisdiction and attempt to terminate the present wearisome deadlock between the Colombian rebels and their government.

Philippine Coinage.
San Francisco, Nov. 18.—Charles A. Conant, special commissioner of the war department on coinage and banking in the Philippines, and D. R. Williams, secretary of the Philippine commission, left for Washington. They are carrying with them the annual report of the Philippine commission. While its contents will not be made public until after it has been delivered to the president, Commissioner Conant intimated that the commission has renewed the recommendation made a year ago upon the subject of coinage.

SENSATION

Will be Caused in Hearing of the Case

Which Will Commence in Washington Tomorrow.

The Trial of Miss Ida Bonine Charged With the Murder of James S. Ayers About to Begin.

(From Wednesday's Daily Edition.)
Washington, Nov. 18.—Tomorrow the trial of Mrs. Ida Bonine, charged with the murder of James Seymour Ayers, will begin here. The evidence so far as known is wholly circumstantial. Ayers was found shot dead in his room. Mrs. Bonine admitted that she went there, that he threatened her and that in the struggle he was shot. The trial promises to be the most sensational ever held in Washington.

AS A FAKE

The Latest Yukon Republic Story is Branded.

Special by wire to Times-Democrat.
Seattle, Washington, Nov. 18.—The story of the Yukon plot to overthrow the north territory government and establish a republic is declared by returned Klondykers to be a fake. It is pointed out that miners with claims could not risk losing them. Local officials of the White Pass railway, say there have been no suspicious shipments.

ARBITRARY

Health Ordinance was Enforced
And Six Fatal Cases of Lockjaw Resulted.

Citizens of Camden, N. J., Aroused Over the Result of Compulsory Vaccinations of Their Children.

Special by wire to Times-Democrat.
Camden, N. J., Nov. 18.—The compulsory vaccination of school children has been followed by eight cases of lockjaw, six of which were fatal, and has brought fear and anger to the parents of thousands of school children here. The fear arises for the safety of their little ones and the anger over the arbitrary health ordinance is intense.

DYNAMITE USED

By Robbers Who Cracked a Safe at Findlay This Morning.

After Exchanging Shots With an Attorney the Burglars Visited the C. H. & D Depot and Secured \$700 in Cash.

Special by wire to Times-Democrat.
Findlay, O., Nov. 18.—Attorney Jason Blackford, last night, exchanged shots with two burglars and thinks he shot one in the leg, but both got away. Mr. Blackford was not harmed. His daughter Edith, upon returning home from church, noticed two men overhauling the contents of a dresser by the aid of a lighted match in the residence of Col. Henry Bial, next door. She informed her father, who at once sent word to the police. Mr. Blackford then armed himself with a revolver and stood guard at the rear of the Bial residence. The two men soon emerged from the house and were ordered to halt. Instead of obeying the men started to run and Mr. Blackford shot at them, apparently wounding one in the leg. Each of the men fired a shot at Mr. Blackford, but the bullets went wide of their intended mark, the men disappearing in the darkness.

A few minutes later Mrs. William J. Frey, who resides a few doors from the Blackford residence, returned home from a call on a neighbor. She heard some one upstairs and calling out, "Is that you, Will?" received an affirmative response. She started up stairs, when a stranger bolted down past her and out the front door. Investigation showed that the man had started to ransack Mr. Frey's room. Nothing of value was missed either at the Frey or Bial residence. The police at a late hour had failed to find the burglars.

At about 12 o'clock the safe in the C. H. & D freight office here was blown open by cracksmen and several hundred dollars are believed to have been secured, the amount not being definitely known. It is thought that four men were concerned in the job, but they succeeded in effecting their escape. The safe was wrecked. Secured \$700.
Findlay, O., Nov. 18.—Robbers this morning finished their work here by blowing the safe in the C. H. & D. ticket office securing \$700 in cash. The gang has been working in this vicinity for several days and has many petty burglaries to their credit.

BLOOD

Is Shed Over Labor Troubles.

Big Coal Mine

The Scene of Exciting Tragedies.

One Miner Killed and Four Other Men Wounded in the Clash.

Strikers Opened Fire on Non-union Men and the Guards Returned it—Troops Have Been Called Out.

Special by wire to Times-Democrat.
Dixon, Ky., Nov. 18.—There has been no trouble between the miners at Providence since yesterday morning. Sheriff Hubbard and his posse of deputies and state troops are now there and are scouring the hills and woods about the mines. The miners who did the firing yesterday are believed to have gone to Madisonville, Sturgis and other towns.

STRIKERS

Opened Fire and Guards Responded With Fatal Results.

Madisonville, Ky., Nov. 18.—Mining troubles in this district brought more bloodshed. James H. Smith, a negro striker, is dead; George Crouch, another striker, is fatally wounded, while John West, Hat Dawson and Nathan Bush, all guards, are badly hurt. The trouble occurred at the mines of the Providence Coal company, 17 miles from here. The attacking party, some 75 or 80 strong, first fired on the engine house, and then in a few minutes the company's stables were surrounded. A horse and a mule were killed and several other animals disabled. By this time the guards were becoming active and the attackers formed in a semi-circle over the brow of the hill. From there they poured a well directed fire upon the houses occupied by the nonunion employes and their families. Men aroused by the crash of bullets rushed to small timber piles, arranged for use in such an emergency, and from behind these returned the fire. The attacking party, while sending volley after volley into this quarter, kept up a steady fire on the buildings of the company, while the guards for their part were doing effective work. The battle raged for almost an hour and a half, when the assailants withdrew, leaving Smith dead and Crouch shot through and through, on the field. How many wounded they took with them is not known, but the leader was seen to fall and it is believed some of the party who went to his rescue were hit.

LOVER

Whose Love Has Driven Him Insane

Awaits an Examination at Bellevue Asylum.

Sent His Sweetheart Eighteen Thousand Love Letters in Five Weeks, More Than 500 Each Day.

Special by wire to Times-Democrat.
New York, Nov. 18.—Henry Brown, a good looking young fellow, is in the insane pavilion at Bellevue awaiting an examination. He was arrested on complaint of Miss Minnie Denzinger, and it has developed that Brown had sent the girl 18,000 love letters in five weeks, or an average of over 500 letters daily. The magistrate decided that a sane man, no matter how much he was in love, would not write a girl that many letters in so short a time.

ON CHRISTMAS

Senator Depew Will be Married in Paris.

Special by wire to Times-Democrat.
New York, Nov. 18.—Senator Chauncey Depew announced today that he would be married Christmas day in Paris to Miss May Palmer. They will return at once to America.

JAPANESE

Laborers Meet Death in a Collision.

Twenty-Five Killed on the Northern Pacific.

A Freight Train Running at Rate of Twenty-Five Miles an Hour Crashed Into a Work Train on a Curve.

Special by wire to Times-Democrat.
Butte, Mont., Nov. 18.—Twenty-five Japanese laborers were killed by a collision on the Northern Pacific railroad near Blair in the eastern part of the state, yesterday, and four others were seriously injured, an east bound extra freight train running twenty-five miles an hour, and going around a curve, met a work train, the two coming together full head. Conductor Krause, of the work train, was the only white man injured.

The Weather.

Special by wire to Times-Democrat.
Washington, Nov. 18.—Ohio, rain or snow tonight and Tuesday.

Grain and Pork Market.

Special by wire to Times-Democrat.
Chicago, Nov. 18.—Closing December wheat 71½; corn 59½; oats 36½; January pork 15.07½.

Live Stock Market.

(From Friday's Daily Edition.)
Chicago, Nov. 18.—Cattle 22,000, steady; hogs 44,000, steady to weak; sheep 28,000, steady.

Labor Men in Politics.

Chicago, Nov. 18.—Inspired by the success of the Union labor candidates in San Francisco and Bridgeport, Conn., the labor men of Chicago are to be organized into a wage-earners' party and will have their own candidates for municipal and state offices. This movement was started by the Chicago Federation of Labor. A meeting of all the labor men of Chicago has been called for the first Sunday in December, when a regular party organization will be perfected. According to present plans the platform will embody nothing but demands for the enforcement of the claims of the union laborer. The candidates will be wage-earners, and all appeals will be to men of that class.

Battle With Bank Robbers.

Sloux City, Ia., Nov. 18.—John Sandblad was shot and killed in a battle with Greenville bank robbers at Albert City. He was one of the prominent merchants of Albert City. Constable Lodine was shot in the groin and is in a critical condition. A robber, who was shot in the stomach, is dead. He refused to give his name or the names of his assistants, but he admitted that they had robbed the bank. Two men, a negro and a white man, also admit robbing the bank. They gave their names as Jack Johns and Louis Brooks.

ISLAND

Of Samar is Still a Scene of Great Activity in Warfare.

Filipino Bolomen are Routed

After an Attempt to Rush Upon and Slaughter Another Company of the Ninth Infantry. Two Americans were Killed.

Manila, Nov. 18.—Company E of the Ninth infantry, Captain F. F. Shoefel, was attacked by 50 bolomen and several insurgents armed with rifles at a point six miles from Tarrangman, in the island of Samar. The insurgents tried to rush the Americans, but, failing to accomplish their purpose, they quickly broke and scattered. The men of the Ninth had a corporal and a scout killed and one private wounded. Sixteen of the bolomen were killed, while the riflemen escaped.

Ten Hotchkiss rapid-fire guns will be sent to the southern islands for operations in the mountains. Captain Herman Hall of the Twenty-first infantry has been scouting for several days in Batangas province. He had four separate engagements with the insurgents there. Judging from the firing on these occasions, Captain Hall estimates the force of each band of the rebels at from 30 to 50. They made no attempt to charge Captain Hall's party. Captain Hall's scout resulted in the capture of one insurgent officer and 50,000 pounds of rice.

General Sumner, commander of the district of southern Luzon, highly praises Captain Hartman and his troop of the First cavalry, who, last Wednesday morning, attacked 400 in-

surgents entrenched in rifle pits at Buan, Batangas province, and routed them. General Sumner says the blow then administered by Captain Hartman is the most severe the insurgents have suffered since he (General Sumner) assumed command of his district. Owing to the fact that the United States transports Sheridan, Waldron and Hancock all met with accidents in the inland seas of Japan and the returning party of visiting congressmen is consequently delayed in the latter country, the transport Thomas, which arrived at Manila Nov. 12, will be immediately dispatched to Japan. General Chaffee opposes United States transports in future passing through the inland seas.

The Filipino priest Desperly has been sentenced by courtmartial to the penalty of death for murder of certain of his countrymen who favored the Americans. Out of respect, however, to the condemned man's calling and, to the great religious body to which he belonged and most unworthily represented, General Chaffee has commuted his sentence to 20 years' imprisonment.

The municipal authorities have decided to enlarge the city of Manila and to incorporate within its limits the suburb of Santa Ana.

BUTCHERS

Of the Weyler Kind are Executed

Under Orders of Gen. Chaffee in the Philippines.

One Prisoner Had Caused Five American Prisoners to be Hacked to Pieces, Another Murdered Spaniards.

Special by wire to Times-Democrat.
Washington, Nov. 18.—General Chaffee's report from the Philippines today says that during the past month twelve Filipinos were hanged, ten sent to prison for life, and twenty more for terms of from five to thirty years. Timoteo Dhaalan, one of the executed men had five American prisoners of war, bound and hacked to death. Francisco Drayanza, another Filipino, whom Gen. Chaffee had hanged, massacred one hundred of one hundred and seventy-five Spanish prisoners, who had been turned over to him for safe keeping. Brazanea divided the prisoners into squads of ten, tied their arms, marched them into rice fields and by blowing a whistle for a signal had all but seventy killed in quick order with bolos, daggers, clubs and spears.

Workmen Crushed.

Columbus, O., Nov. 18.—The premature explosion of a blast of dynamite in quarry No. 8 of the Casparis Stone company, at Marble Cliff, a suburb of this city, resulted in the death of two employes and the injury of four others. The dead: A. Michael Vacchi, John Michael Antonis. Fatally injured: Frank Wilson, a negro. The dead men were crushed beneath over eight tons of rock. The injured were struck by flying fragments of stone.

Burglars Still at It.

Chicago Junction, O., Nov. 18.—Burglars blew the safe in the general hardware store of C. A. Weatherford & Company. The safe was completely wrecked, the main door being blown a distance of 10 feet. The robbers removed the money box, containing \$10 and valuable notes and papers, and made their escape. Later the box and papers were found. The robbers escaped.

Big Fire in Chicago.

Special by wire to Times-Democrat.
Chicago, Nov. 18.—The four story storage ware house of the C. W. Jones Van Co., was destroyed by fire this morning. Thirty-four horses were reported lost. Loss \$50,000.

FLOOD

Of Tears Followed
the Sermon

Of the Pastor

Delivered at Grace M. E.
Church.Eloquence and Earnestness
of the Speaker Caused
a SceneThat Will Long be Remembered by
the Congregation That was
Present—News from
Across the River.

Last night Grace M. E. church was filled to its utmost capacity by an immense audience assembled to hear Rev. W. E. Hagerman's discourse upon the subject of the flood. At the close of the sermon a scene, the like of which has perhaps never witnessed in this city before, and probably will not be again, occurred. The speaker had depicted the biblical events of the deluge in terms, attaining lofty heights of oratory, which moved the hearts of his audience until all were deeply agitated. Seemingly oblivious of everything but the great truths of the lesson he was telling the zealous minister at a climax of sympathy his right of self, breaking forth in a deluge of tears. Leading against the light he gave way to his emotions. The pastor of the occasion appealed to the vast audience. Strong men wept and women sobbed without restraint. Unbidden almost the entire audience sank upon their knees with heartfelt faces and melted hearts they remained in a communion of silent prayer. The remainder of the services were the impression of one of the most remarkable religious scenes ever witnessed in south Lima.

Yesterday was Anti-Slavery Day. It was especially observed at the south side church of Christ, where Rev. J. C. Jackson, D. D., president of the south main street Presbyterian church. Both these morning services were well attended. The speakers made a favorable presentation of their subjects.

"At the Forks of the Road," a special sermon to young persons was delivered by Rev. Sims, at the south side church of Christ last night. He addressed a large audience all of whom were given the benefit of his counsel.

The Catholics of south Lima had the tradition of assembling for worship for the first time in their new building on south Main street, yesterday morning. Father Rupert delivered two sermons in his inimitable style at the masses which were largely attended. The new Sunday school organized yesterday has begun its work propitiously.

The south side church of Christ is rehearsing for a concert to be given at the church in the near future. Miss Annie McKibben, who recently received such general favorable mention for her vocalism at evangelistic services through western Ohio, will assist.

The south side Baptist church is also contemplating giving an entertainment largely of a musical nature soon. Rev. W. G. Smith, on south Elizabeth street, will go to Findlay this week to assist in an evangelistic meeting at the Second Presbyterian church of that city.

Clarence Clay, of Delphos, spent Sunday with south side friends. Visiting relatives on St. Johns avenue, T. J. Black left Saturday night for Ada.

Last night Arthur Anderson received word when he came in on his run from Huntington, Ind. that his father was dying at Hillsdale, Mich. He left for there immediately.

BARLEY FOR FEED.

Much Used on the Pacific Coast For
Horses—Not Good For Hard Work.

Except on the Pacific coast, barley is not extensively used as a feed in the United States, doubtless owing to the fact that it is in such demand for brewing purposes that it is high in price. Wherever it is grown it is frequently possible to secure at a low cost grain which is off color owing to rain or fog during harvest and which for this or some other reason is unfit for brewing, but valuable as feed. The barley grown on the Pacific coast is extensively used in the feeding of horses. Its use for this purpose is old in other countries. The Arabs fed their horses unground barley, and it is used successfully by the Berbers of north Africa. In Europe its value is generally recognized. Barley may be fed whole to horses having good teeth and not required to do severe work. Since ground barley, like wheat, forms a pasty mass when mixed with saliva, it is regarded as more satisfactory to crush than to grind it if for any reason it is considered undesirable to feed the grain whole. In composition barley resembles oats and other cereal grains quite closely.

The North Dakota station has recently studied the value of barley as a feed for work horses and mules. For some months this grain was fed with timothy hay to three horses and two mules. The mules did not eat the barley with marked relish at any time, but for two months, during which time they were performing light work, they ate enough to keep them in condition. The work was then increased, but they would not eat a correspondingly greater quantity of barley and soon began to refuse it altogether for a day or so at a time. The mules were then given oats on alternate months. This grain was eaten with relish, and gains in weight were made. Although the trial lasted nine months the mules persistently refused barley.

This trial indicates that horses, when taxed to the limit by hard work, can not be supported upon barley quite so well as upon oats and that it is worth slightly less per pound than oats with stock which is given a medium amount of work. It indicates further that mules take less kindly to barley than do horses and that horses which are inclined to be "dainty" eaters will not eat barley so readily as oats.

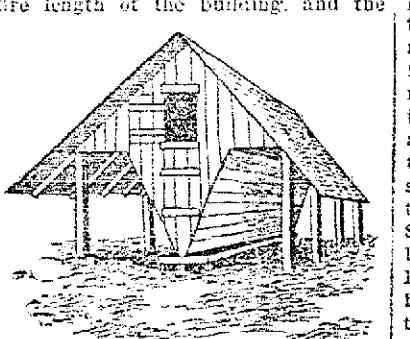

One Way to Pasture Sorghum.

On July 1 at the Kansas station twenty-seven milk cows were given all the alfalfa hay they would eat and then turned into a sorghum field of 67 acres for fourteen minutes. The sorghum was from eighteen to twenty-four inches high. The next day they remained thirty minutes, the third day forty-five minutes, and so on, increasing fifteen minutes daily until they reached an hour and thirty minutes. During this transition period the cows were given all the alfalfa hay needed to keep up the normal flow of milk. Cattle should have their stomachs so well filled that they feel completely satisfied before touching the green sorghum and then be allowed to eat only a few minutes at a time until they are accustomed to it.

Handy Device For Cattle Feeders.

An Illinois correspondent has sent to the Iowa Homestead a sketch of a self feeder which he built.

Above the triangular hopper is a floor with traps in it running the entire length of the building, and the

hopper can be replenished from time to time, as occasion requires. Food can be stored here for bad weather. A door, shown in the illustration, is where the self feeder is replenished from the wagon when the weather is fine. According to the correspondent, the projecting roof is all that is needed for fattening cattle in his locality.

Honey In the Cellar.

The average cellar in most places is about the worst place that could be chosen to keep honey, remarks an exchange. For extracted honey choose a dry place, for comb honey a place that is dry and warm. A place that will not keep salt dry will not do for honey. It absorbs moisture as does salt and will become thin and in time may sour. Comb honey in a damp place will attract moisture, and finally the cells will become so full that the honey will ooze out through the crevices and weep over the surface. Freezing will crack the comb. A good place to keep honey is in the warmest part of the kitchen, perhaps in the upper shelf of the cupboard.

One Thing and Another.

Pigs fed soy beans fatten rapidly, look thrifty, have strong appetites and glossy hair and skin.

The Angora goat is now having its day in Arizona, New Mexico, Texas, California, Idaho, Utah and Oregon.

A recent great mustang hunt in north-eastern Arizona is probably among the last that will ever be held, as the herds of the plains and Rocky mountain foothills have practically disappeared.

Windmills play an important part on the big farms of the plains.

DELAY DANGEROUS.

American Consul Still Dickering With
the Bulgarian Brigands.

Sofia, Bulgaria, Nov. 18.—The brigands who abducted Miss Ellen M. Stone, the American missionary, and Miss Talska, her companion, have not yet replied to the latest proposals of Mr. Dickinson, diplomatic agent of the United States in Sofia. This is believed to be due to the fact that the band has many leaders and that the latter are unable to agree among themselves. There is a general impression here that time is being frittered away while waiting for the brigands to reduce their demands. It is felt that the only means by which the matters can be brought to a head is to inform them as to the sum available for ransom and to declare that this can not be increased for any consideration whatever. Such an ultimatum might endanger the life of Miss Stone, but it is more probable that the brigands will accept this condition. Besides every day's delay imperils her life, not so much on the score of the brigands themselves, but by reason of the exposure and strain she is undergoing.

New Isolation Treaty.

London, Nov. 18.—The sentiments expressed at the banquet of the Lotus club in New York were warmly reciprocated in the London papers, some of them seizing the occasion to refer editorially to the isolation treaty. The Standard says it is confident that Lord Salisbury and Lord Lansdowne have taken care that the new treaty will not be disadvantageous to Great Britain. The Daily News and Daily Graphic declare that great disappointment will be experienced in England if it is found that there has been another "graceful concession."

Senator Cullom's Ambition.

Washington, Nov. 18.—Senator Cullom of Illinois will be chairman of the foreign relations committee to succeed the late Senator Davis. Senator Cullom said: "I can not understand why rumors to the effect that I was undecided whether or not to take this chairmanship should be put in circulation. I have had no other intention since Mr. Frye declined the honor." Mr. Cullom's decision to accept this chairmanship will cause him to resign the chairmanship of the committee on interstate commerce.

CRIDERSVILLE ITEMS.

Mayor Burkhardt and wife spent Sunday in Lima with his brother, F. A. Burkhardt and family.

Miss Ho Kelly was the guest of relatives at Ada, Saturday and Sunday.

F. E. Burkhardt and Frank Harpster were among those who attended "Across the Desert" at Lima last Saturday evening. Quite a number of our young folks intend witnessing "Vanity Fair" Tuesday evening.

Thos Klingensmith is enjoying a ten days lay off and is hunting quail. Bert H. DeLong, a soldier boy, from this place in Co. C, 25th infantry, is now in the hospital at the Columbus barracks.

C. A. Stransburg was home from Cincinnati a few days last week on a hunt.

Esta Breunerman returned to her home at Cairo last Wednesday, after being the guest of J. W. Harruff and family for a week. Mrs. Harruff accompanied her to her home.

The U. B. church will begin revival services the next Tuesday evening following Thanksgiving.

Miss Clara Ague, of Wapakoneta, is the guest of D. H. Burgott and family. Miss Sersal Reheider is at South Bent, Ind., where she will teach elocution and physical training this winter.

Rue Barton spent Sunday at home with his parents.

A number of our crack shooters will attend Talmage's shooting match at Home on Nov. 27.

Wednesday is the day set for hearing before the County Commissioners concerning the annexing of more territory to our thriving and hustling town. Mr. DeLong and a few followers will strongly oppose it but what 95 per cent of our citizens want will surely be granted. Only those having personal interests oppose the annexation.

Last week the Lima police sent a desperado down to our little village, whom they had just let out of jail, having been locked up for pocket picking. But he wasn't in town long till he had a couple of pals and the ever watchful eyes of deputy marshal Bluger were on them. Two of the gang were locked up in the bastille over night and the crook sent down from Lima was soon digging up gravel on the C. H. & D. tracks, south. We wish to extend our sincere thanks to the Lima blue coats for their courtesy in sending us crooks they don't want so they can be free from them and have a good time.

A RAWHIDE WHIP

Used By Muncie Police to Secure Confessions From Offenders.

The Muncie, Ind. police have adopted a novel method of bringing confessions from offenders in minor cases. It is a rawhide whip. The whip is merely a "bluff" but it is a bluff that has thus far carried. If the officers have any reason to believe a boy or man is guilty of something and he is backward about confessing, the offender is taken to the rear room. There a large, muscular policeman divests himself of his coat, rolls up his sleeves takes hold of a rawhide in a businesslike manner and commands the trembling culprit to tell all he knows. In every instance, thus far, the guilty individual has lost no time in confessing. What the officer would do in case he should encounter a prisoner who refused to confess is a question, but it is likely he could do nothing but replace his coat and take the fellow before the chief, as the officer is not permitted to strike a blow. A supposed deaf and dumb boy who was begging about the streets, had his sneeze restored by means of the rawhide, and he promised to leave town.

In 1874 the exports from the United States to Mexico were 25 per cent. of that country's total imports. For the year 1900 our exports to Mexico were valued at \$11,085,593, or 51 per cent. of the total of Mexican imports. Now that the railroad companies have broken the way for larger intercourse by penetrating to the very gates of the Mexican capital there is no doubt trade between the two countries will steadily increase. The negotiation of a treaty of reciprocity is urgently needed in the interest of producers and consumers in both countries.

The census bureau has sent out advance sheets of its final report on the population of the United States, giving sex, general nativity, and color. The report shows that the males in this country number 39,059,242, and constitute 51.2 per cent. of the total population in 1900, while the females number 37,244,145, or 48.8 per cent. There is a slightly larger proportion of females now than ten years ago. All the past census reports show a small lead in the male population, but the large excess of 1,800,000 males in the United States is attributed to the excess of male immigration.

There are, or were in June, 1900, in the United States 65,843,902 native born persons, and 10,400,085 foreign born, the latter element constituting 13.7 per cent of the total, against 14.8 per cent ten years ago. The foreign born show an absolute increase during the decade of 1,151,594, while the native born have increased in ten years 12,031,537.

As to color and race, there are 9,812,555 colored persons in the country, of whom 8,840,789 are negroes. There are two million more foreigners than negroes. The Indians are set down at 266,793, the Chinese at 119,050, the Japanese at 85,986. The Chinese and Indians show a slight decrease since 1890—the Chinese of 6 per cent and the Indians of 2 per cent. The negroes have increased during the last ten years 1,352,000, or 18.1 per cent, while the white increase has been 11,854,615, or 21 per cent, but it should be remembered that the negro increase is by birth, while the white increase is largely aided by immigration.

Of the total white population 36,740,793 are native whites, constituting 13.4 of the total population. Native white persons are in turn subdivided into 41,053,417 of native parentage and 15,687,322 of foreign parentage, constituting, respectively, 53.8 per cent. and 20.6 per cent of the population.

The native white element has increased relatively twice as fast as the native whites of native parentage. This fact is an important fact to bear in mind, showing a greater birth rate among those of foreign birth than those born in this country. Foreign parents, according to the report, have twice as many children as native born parents.

WHAT STRIKES HAVE COST.

Experts have computed the cost of the steel strike to the American Steel corporation and to the workers. On an estimate that 50,000 men were idle two months and a half their loss in wages approximates \$10,000,000, while the gross earnings of the companies controlled by the great steel trust were cut off to the extent of nearly \$15,000,000. It is said, however, that there is a possibility of a portion of the loss sustained by the steel trust being made up by the filling of orders that have not been withdrawn.

On the question of losses by strikes,

Carroll D. Wright, the United States commissioner of statistics, computes that for the twenty years ending December 31, 1900, there was a total loss by strikes and lockouts of not less than \$468,968,581. Of this sum, Mr. Wright's calculation is that the strikes cost the workmen \$274,000,000, and employers \$123,000,000. The lockouts cost labor \$52,000,000 and employers nearly \$20,000,000. These totals are for 22,798 strikes and 1,005 lockouts. In half the strikes and lockouts the workmen failed to gain their ends.

OUR COFFEE SUPPLY.

After investigation of the coffee producing capacity of Porto Rico, Hawaii and the Philippine Islands the treasury statisticians at Washington have reached the conclusion that the United States may hereafter obtain their supply of this important article of commerce from home sources. The consumption of coffee in the United States is something enormous. The importations for the first nine months of the current fiscal year were 617,343,858 pounds, valued at \$45,218,119. Of this quantity 505,581,576 pounds, valued at \$34,703,359, were imported from Brazil. From other parts of South America the importations into the United States for nine months were 78,134,566 pounds. From the West Indies 5,777,530 pounds were obtained, and from the East Indies 11,038,358 pounds.

These figures show that our expenditures for coffee foot up more than one million dollars per week, and that we get nearly our whole supply from Brazil and other South American sources. If this vast trade could be shifted so as to give employment to workers on coffee plantations in Porto Rico, Hawaii and the Philippines it would do much to establish insular prosperity and to lay the foundation for political stability and good will. The extraordinarily good quality and cheapness of the South American coffee are, however, serious impediments to successful rivalry. We may in time become independent of our present sources of supply; but unless the government shall undertake to discriminate against consumers in favor of home grown coffee by levying a tax on imports the transition will be very slow. A coffee tax, like the sugar tax, would be a heavy revenue producer, and would not, therefore, be objectionable on the ground of being levied solely for protective purposes.

A FILIPINO HUMORIST.

Tricks Played by Quintan Salas on American Officers.

Quintan Salas, the Filipino leader in Manila, who recently surrendered, seems to be a humorist as well as a fighter and has played many tricks on American officers, says the Chicago News. At one time when Captain C. M. Rayson, a volunteer officer, was ordered to pursue Salas to the Lumaugan region he ran across a native who offered his services as a guide. Captain Rayson was quick to avail himself of the offer. The guide seemed to know the country very well and showed the captain more bypaths, lines, short cuts and hard trails than he possibly could have found alone. Up and down the bad lands they liked after that will-o'-the-wisp, Quintan Salas. Toward the last of the march the guide told the captain that he would do a little scouting around himself and see if he could locate any signs of Salas or his men. He evidently found something, for he did not return. While in Manila recently Captain Rayson was introduced to Colonel Quintan Salas and could hardly believe his eyes as he recognized, standing before him with easy grace, his erstwhile guide of the swamps.

Captain Rayson is not the first American officer that Quintan Salas has had fun with. He dropped into Pototan one day evening disguised as a padre and made a pretty fair collection of outstanding accounts. The commanding officer was apprised of his visit, but when a search was instituted Quintan had just gone up the road. Another officer, a Lieutenant Conger, once ran across an insurgent hospital. The place was in charge of a very courteous medical officer, who greeted Lieutenant Conger quite cordially. He had a red cross on his arm. Not to be arid in the amenities, Lieutenant Conger extended all the privileges granted by the Geneva convention and rode away. After he reached his bivouac for the night the lieutenant learned that the medical officer he had met was none other than Colonel Quintan Salas. The red cross had been assumed after the Americans came in sight, and most of the wounded and sick were "faked" also, for a visit to the place immediately afterward found it completely deserted.

GOOD

Cheer Reigned During the Evening.

G. R. Fetter Celebrated His Birthday Anniversary

And a Royal Spread was Served the Guests Who Came from Town and Country.

Assembled at the hospitable home of G. R. Fetter last Friday night were two score of relatives and friends of the genial host who gathered at his invitation to do honor to his 37th birthday. Mr. Fetter lives five miles east of Lima in Bath township and the house was put in condition for the accommodation and entertainment of those who came from both city and country to partake of the good things that made the festive board groan.

There was a long and delightful evening before the spread and following the feast there was still a good part of the night left for the introduction of vocal and instrumental music and the general good cheer which flows when the company is congenial.

The "Ram Dum" club, which has Allentown as its headquarters, was present in full force and helped to make the evening an even more delightful occasion than was promised. Its representatives entered into the festivities with a desire to do justice to the occasion and announced before the party disbanded that there would be a meeting held in two weeks at the home of Bates Bowersock's.

Among those who enjoyed the evening were "Butch" Griffith, James Bull and family, Jacob Fetter and daughter, Julius Fetter, wife and son, Bates Bowersock and son, David Heffner and wife, Daniel Fetter, Brice Heffner and wife, Lewis Wingate and wife, Dr. Blattenberg, Rollie Holland, Joseph Haller and others. Mr. Fetter was the recipient of several handsome presents that will be kept as a life-long reminder of the occasion, and while the gifts are appreciated many times more than their real value, the fact that everybody left after having declared themselves royally entertained, is sufficient of itself to make the host of the evening feel that he was well repaid for whatever slight inconveniences might have been caused.

After a repast consisting of oysters, and all of the accompanying side dishes, winding up with cigars, the host sang with all his well known fervor, "When Shall We All Meet Again?" and the jolly crowd dispersed, not forgetting congratulations and well wishes which were so well deserved.

ADMIRAL DEWEY'S LUNCH.

Carries It With Him While Sitting on Court of Inquiry.

Admiral Dewey carries his lunch every day to the navy yard, where the Schley court of inquiry is sitting, says the Washington correspondent of the Chicago News. There is not a decent luncheon within a radius of a mile of the navy yard, and the admiral evidently was aware of this fact in advance, for on the first day of the inquiry he hurried into the gunners' workshop, jauntily carrying his little lunch basket, while Ah Lin, his Chinese servant, followed close behind, tugging at the suit case that contained the admiral's uniform. Ah Lin and the suit case monopolized the attention that day. The crowd did not catch on to all the fine points of the diminutive basket that the hero of Manila carried. Now the arrival of the basket is watched for as eagerly as that of the head of the court of inquiry himself.

The basket is of the finest Filipino weave and of a peculiar light green color that makes it look scarce when contrasted with the white walls and woodwork of the chamber in which the sessions are held. It is always carefully wrapped with ribbon of that particular size and color that the dry goods clerk hands out when asked for "baby ribbon."

When the court makes its midday adjournment, the admiral hurries into the retiring room in the rear of the court, balances the basket on his knees and patiently unwraps the narrow blue ribbon. After he finishes his luncheon he as patiently wraps the ribbon around the basket again and pulls it carefully on his table. When his work is done for the day, he bears his lunch basket to his carriage, tenderly places it on the seat beside him and drives out of the navy yard. The crowd enjoys the perambulation lunch basket almost as much as the admiral appears to enjoy its contents, but so far as can be ascertained no one has had the temerity to chaff him about it, although it is well known that the admiral enjoys a joke.

JEROME JUNIOR PROPHECIES

"Chinky" Says Papa Is Going to Surprise Folks Pretty Soon.

"No, I'd never like to see papa president of the United States. I don't know that I'd like to see him even governor, because then he would not have any time to spend with mamma and me, and he'd be always working and never get any rest."

Thus did William Travers Jerome, Jr., set a limitation on his father's political career, according to a Lakeville (Conn.) dispatch to the New York Evening Journal.

"Chinky" as the son of the district attorney elect of New York is dubbed, is eleven years old, but he is politically wise beyond his years. Constant association with the men who always surround his father has brightened the little chap wondrously, and his likes and dislikes for the candidates in the late campaign are pronounced.

"I like papa most because he is my papa," he declared, "and next because he is an honest man. He didn't need to be in this election, but I'm glad he ran, now that he has been elected, because he will show the people what he is made of."

"Oh, he's going to surprise everybody before he gets through! 'Yes, I like Low and Shepard both. I like Low principally because he is educated and believes in education. Not enough attention is paid to education in our country, and that is the cause of most crime."

"You can just bet Mr. Low will build plenty of schools and run them to good shape."

Schoolteacher's Untimely End.

Salem, Ind., Nov. 18.—Miss Nellie Gates, 23, a schoolteacher of the Salem public schools, while passing along the street was hit by a falling barrel of coal and killed. Employees of the opera house were elevating coal to the third story by means of a rope and pulley. When the barrel was near the window of the third story the rope broke and the barrel struck Miss Gates, crushing her to death.

SHIPPING

Of Grain Cut Off on the Pittsburg.

Not Enough Cars to Take Care of the Traffic.

May Steel Mills Having to Shut Down Because of a Lack of Coke to Run the Furnaces.

As a result of the unprecedented scarcity of freight cars on the roads west of Pittsburg, this division of the Pennsylvania railroad has cut off shipments of grain, hay and potatoes. This line is unable to furnish more than half the cars needed to move the steel and iron products out of the Pittsburgh region. Six furnaces in the region have been closed down because the railroad companies have been unable to haul the necessary supplies of coke.

reduce the tonnage of its freight trains in conformity with the winter rules governing such matters. Locomotives cannot pull as heavy a load in winter as in summer months. For instance one of the big G-4-A freight engines which has been hauling 2,000 tons per load all summer, will not be able to pull over 1,500 tons on the average winter day. Of course there will be days in the winter season when the tracks will be as dry and free from snow as they are in the summer and then the load can be increased.

General Notes.

A freight wreck at Alliance, Ohio, Saturday completely blocked the Pittsburg tracks for several hours. All trains were more or less delayed by the accident and No. 11, the west-bound mail and express, due here at 2:20 p. m., did not come in until after 11 o'clock.

The Fort Wayne Sentinel contains a half time cut in its Saturday issue of four brothers who are all engineers and all located in that city. They are Dennis, John, Jerry and Michael McCarthy, and have railroaded respectively, thirty-six, twenty-six, twenty-two and sixteen years. Michael has been with the Nickel Plate since starting out on his railroad career and the other three boys are all with the Pittsburg.

SPIRIT

Of Mrs. James H. Orchard

Has Departed. Damage Suits

She Had Been Sick Since July Last

And Bore Her Sufferings With Great Patience and Fortitude.

The Funeral Services Will be Conducted Tomorrow Afternoon at 2 O'clock from the Late Residence.

The lingering illness of Mrs. James H. Orchard, of west Market street, terminated in death this morning shortly before 6 o'clock. Since July 25th last, Mrs. Orchard had been critically ill, and during the past few weeks life has hung in a balance and all hopes of her recovery were abandoned.

Last Friday a turn for the worse came, since then, the patient, silent sufferer grew weaker and weaker, until this morning, just as a new day was breaking, the long and painful struggle against death was over and the spirit of a good woman, sympathetic in the troubles of others and brave in her own sufferings, passed into the great beyond.

Susie E. Long was born in Massillon, Ohio, February 22, 1852. In that vicinity she grew to young womanhood. Her rare personalities and sympathetic nature won for her many friends throughout her life and these same estimable qualities have caused her death to be keenly felt by many.

On the 22d day of August, 1874, she was married in Canton, Ohio, to J. H. Orchard. For the past 22 years she has been a resident of this city. To mourn their irreparable loss, she leaves, beside her husband, one child, Mrs. James McIndoe. One son, Harold, preceded his mother to eternity twenty three years ago.

The funeral services will be held from the late residence tomorrow afternoon at 2 o'clock. The Rev. Dr. R. J. Thomson, of the Market street Presbyterian church will officiate. The following will act as pall bearers: Col. I. T. Moore, E. B. Mitchell, D. C. Richmond, G. M. Sprague, Dr. Geo. Hall and Dr. Bannister and consign the remains to earth's last resting place in Woodlawn cemetery.

Irish Regatta.

Dublin, Nov. 18.—Baron O'Brien, lord chief justice of Ireland, who recently announced his intention to offer a cup for an international rowing competition in connection with the Cork exhibition next year, presided at a meeting of a special committee, which decided to issue invitations to principal rowing clubs in Great Britain, the United States, Canada and continental Europe to enter an eight-oared race at Cork about July 2 for the cup Lord O'Brien will present. The trophy, which will be of the value of £250, will be the property of the winning crew.

Wanted in Texas.

Austin, Tex., Nov. 18.—An effort will be made to secure the return to Texas of Ben Kilpatrick, alias Harry Loughbaugh, now held in St. Louis on suspicion of being one of the Montana train robbers. Governor Sayre received from the sheriff of Concho county a request to issue a requisition on the governor of Missouri for the prisoner. Kilpatrick is wanted on several charges, including murder, robbery and jail-breaking in Concho and Tom Green counties.

Victims of the Fog.

London, Nov. 18.—Saturday's fog, which was general throughout the United Kingdom, was responsible for many accidents and fatalities. The driver of a London omnibus was found dead on his box while the vehicle was still running. He was a victim of cold and fog. Several collisions occurred in the Mersey. The Dominion liner Roman, Captain Ingraham, from Portland Nov. 2, ran down and sank the British steamer Sapphire, Captain Luke, of the Dundee Gem line. There was no loss of life. A Norwegian brigantine has been seen drifting helplessly off Hull, and it is feared that several have been drowned.

Yeomanry Captured.

London, Nov. 18.—The South African casualty list shows that in the affairs at Brakespruit, Nov. 13, which Lord Kitchener reported last Friday, 58 yeomanry were captured by the Boers and afterward released.

Fight Put Up by Defense.

Damage Suits

Which Will Cost a Nice Big Sum

Whether the Plaintiff Gets a Judgment or Loses the Case.

Prominent Attorneys Looking After the Joint Defendants in the Action Brought by Wm. H. Enslen.

It has been a long time since such a galaxy of attorneys was assembled in the effort to defeat the cause of a plaintiff than presented itself before Judge Cunningham this morning, when the case of Wm. H. Enslen against the Dayton City Railway company and the C. H. & D. was called. The plaintiff is represented by Reeves and Lindeman while interested in the defense are Motter, Mackenzie, Ira Longworth, Judge Price and the son of R. D. Marshal, of Dayton, general counsel of the C. H. & D.

Enslen was injured while coming out of Dayton on the Delphos division, being struck in the face by a live trolley wire as he was standing erect on the running board of a box car. He did not fall from the car, but was rendered unconscious by the shock and did not recover until Stillwater was reached. He then made his way to the engine, his face and clothing covered with blood and a frightful gash across his face where the live wire had burned through the upper part of his nose and right eye lid. The scar is left to tell the tale and furthermore the unfortunate man is drawn all out of shape as a result of the accident, being left a helpless cripple.

Two Granted.

In addition to the divorce that was refused Mrs. Lizzie Gehrett Saturday on account of insufficient evidence, Judge Cunningham issued two decrees during the day, one to Mrs. Martha Smith on the ground of gross neglect of duty and the other to Mrs. Mary Hockenberry because of alleged cruelty and neglect. In the latter case, the husband, Wm. J. Hockenberry, was present in the court room to hear the evidence but took no part in the proceedings. Mrs. Smith furnished evidence that her husband had left herself and child in destitute circumstances ten years ago.

PARALYSIS

Caused the Death of James Cremean Last Night.

The Deceased Was a Resident of Allen County for Many Years—Funeral Wednesday.

James H. Cremean, well known in this city, passed away at his home, 749 west Vine street last night shortly after 11 o'clock from the effects of a paralytic stroke. Mr. Cremean had been ill but one day and his sudden death comes as a terrible shock to his family and many friends.

The deceased was born in German township, Feb. 3, 1855 and has spent the greater portion of his life as a resident of Allen county.

He leaves a wife and six children to mourn their great loss. The funeral services will be conducted from St. Paul's Lutheran church Wednesday morning at 10 o'clock, Rev. Bossart officiating. Interment will take place in Greenlawn, situated between Allentown and Elida.

Cod Liver Oil and What It Does

The Remedy
Freed from
Grease

Remedial Agents
Retained

Revitalizer
Reconstructive
Restorative

Hagee's Cordial of Cod Liver Oil (with Hypophosphites of Lime and Soda) is based on the learning of famous medical men. They discovered that the grease in cod liver oil is only a temporary preservative of its invaluable restorative and reconstructive properties—not necessary to the cure.

By a scientific method devised from this knowledge, known and practiced exclusively in our laboratory, the grease is extracted from cod liver oil leaving only the remedial elements, to which is added a cordial pleasant to taste and smell, making Hagee's Cordial acceptable to the most delicate stomach.

By its revitalizing, reconstructive, corrective principles it cures la grippe, coughs, colds, weak lungs, bronchitis, consumption, catarrhal conditions, nervousness, sleeplessness, indigestion, dyspepsia, malassimilation, rheumatism, skin diseases, pimples, blotches, weakened condition following fevers, impoverishment of the blood, and creates more and better flesh. The cure begins with the first doses—quick relief—and permanent results are realized day by day—prevents further disorder by maintaining perfect condition.

WOMEN PLAN A TRUST.

A Chicago Club That Aims to Unite the World's Social Leaders.
Mrs. Pauline Harriet Lyon, secretary and manager of the Woman's Athletic Club of Chicago, is visiting in the east to further her campaign for the organization of a "social trust."

Under the name of the International Organization of Athletic Clubs For Women Mrs. Lyon intends to organize a world embracing circuit of allied clubs composed solely of leaders in society.

To women of wealth the dues of the club are no great consideration, but money cannot buy an entrance into the club. The benefits that will accrue to members will be many.

As outlined by Mrs. Lyon, each member of each individual club will be a

MRS. PAULINE H. LYON.

member of the general organization and when in a city having a club will be its visiting member, receiving all the privileges of the club as though she were in her home organization.

A system has been perfected whereby the standing of each woman will be known as well in the city where she is visiting as it is in her home city.

The courtesy which she will receive and the protection which those who entertain her have should be sufficient excuse for the organization of the "trust," say Mrs. Lyon and the women who are most interested in it.

Each club will keep its own individuality and will have at least one representative on the international board.

created quite a new industry in beads, which are sent over to this country now in large quantities, chiefly from Italy.

A lady who wanted to earn some money about nine months ago directed her attention to copying in inexpensive materials the lovely and very costly muff chains, so called, of gold and jewels, from which some fashionable women hung gold mesh purses, pencil cases and charms and others threaded through their muffs and suspended round their necks. She managed to procure what beads she needed somewhere and offered also to make up ladies' own materials, to use a dressmaking phrase, whereupon jewel cases were ransacked for treasures in the form of quaint beads of all kinds and size, pearls, amber, corals and onyx. Other women soon took up the chain worker's profession. Some worked and work still for the shops, others privately, their stock in trade \$10 worth of beads as a start, plenty of waxed thread and unlimited supply of patience and good sight.—Exchange.

Wedding Novelties.

An old notion revived at some late autumn weddings is to use the bride's leaf handsomely decorated as a centerpiece on the bride's table. It is surrounded by a wreath of fern or smilax, and if the cake is baked in a ring shaped loaf a standard for taller greens is set in its center. Another wedding novelty seen, though only where the ceremony was in country house or church, was the use of the chain garland as the bridal party approached the altar. At one of the weddings where this was done the chain was a rope of yellow chrysanthemums borne by the eight bridesmaids walking in couples. The rope was broken every four feet with a pair of wreaths, and two were attached to either end of its length of twelve feet. This provided a wreath for each bridesmaid to carry over her arm. When the bridal party returned to the house, the chain of rope and wreaths was used to festoon the corner of the drawing room where the newly wedded pair received their friends.—Harper's Bazar.

Tight Stock Collars.

Physicians are strong in their utterance against the tight neckbands which the modish girl thinks necessary. Many cases of serious congestion producing sudden fainting fits have resulted from the practice of compressing the throat in the stiff stocks and other neckwear that have long been in fashion. Worse even than the stock is the swathing ribbon, according to the doctors, for this can wind so softly and smoothly about the throat that it is pulled more tightly than is realized until the trouble from impeded circulation occurs. A sudden movement, rapid walking, perhaps, or anything that quickens the heart action may prove the exciting cause to a severe attack while the great arteries of the throat are thus corded.

Earings Worn Again.

The currying question is settled. The zarina appeared at the French festivities wearing "two large pearls incrusting on the lobes of her ears." This sounds peculiar, but seems to mean that she wore pearl earrings.

The person who records this circumstance adds: "I am sorry to say that from a distance they looked as if ink stained little fingers had made these two spots, but, as none of the zarina's children can write yet, it could not be. At a second glance the two spots turned out to be jewels of great beauty. They were fastened with small claws, the imperial ears not having been pierced."

Teach Girls Homecraft.

The education of girls is a subject of interest to all thinking men and women. In the current issue of The American Mother Elizabeth Robinson Scott pleads strongly for the education of girls in all matters which pertain to the welfare of home. Not only should they know how to perform various duties, but they should understand how the different methods are pursued. She asserts that the science of nutrition is as fascinating a study as can be found and more essential and practical than many of those pursued in our colleges.

The Late Queen's Pensioners.

Among the royal pensioners of Queen Victoria may be seen at the Hampton Court paddocks not only the well known career colored horses that were used on so many notable state occasions, but the faithful old white donkey which drew her majesty's Bath chair about for so many years. It has for a companion in its own quarters an old white pony, to which it is greatly attached.

Don't throw away pieces of bread. Put them aside and dry or roll and save for escapology or crumbling. They will dry at the mouth of the oven door while you are washing the breakfast dishes. They may be put aside in a box and rolled at the end of the week. It will take less time than rolling a few each day.

It is noticeable that much of the autumn showing of handsome napkins has the medallion plain space for the crest, monogram or initial left in the very center of the napkin. This is then folded under from each side and again under from the ends to allow the mark to form the centerpiece of the final fold.

Simplicity should be the rule of an invalid's tray. Never crowd on a dozen dishes where three will suffice. If you own a silver tray, use it; if not, the pretty japanned affair may be substituted.

Child Critics.
The children of the third grade in the Swan school, Medford, had a discussion on the merits of different Madonnas and decided that they liked the new "Madonna of the Flower and Thorn," by Hansliuter, the best of all. When asked by their teachers to explain and give their reasons why they liked it the best one little girl said that she liked it best because it was the most "motherly"—the baby looked as if it belonged to the mother, and she as if she were its own mother, while the baby in the Sistine Madonna looked frightened, as if it was trying to get away from the mother and did not belong to her. Here was a thought which I have never before heard expressed, and, although it was only a child's thought, it showed thought and reflection on the part of the child who made it.

One little boy said that he liked the new Madonna the best because there was more "tenderness in it"—a remarkable criticism for a child to make. Still another boy, referring to the thoughtful, faraway expression on the mother's face, said that it seemed to him the mother was "thinking of the time when her baby would be crucified."

Now, what shall we say of a picture that can bring out such criticisms as these from children? Or perhaps you may very properly ask what shall we think of the children who made them?—Listener in Boston Transcript.

The Sandwich Girl.
A young woman in a western city is adding very appreciably to an otherwise moderate income by making sandwiches. As usual with these nondescript businesses, the occupation came by chance. It fell to her lot once or twice to furnish sandwiches as her contribution to one or two fairs and festivals, and their excellence aroused comment. Then friends coaxed her into sandwich service now and then, till at last she took advantage of her evident specialty and became a professional at it. Many of her combinations are original, one of the most being chopped pineapples mixed with a delicate cream cheese, the variety that is made from whipped cream. She does all the work herself, even to the designing of attractive little cards decorated with a seasonal flower, upon which she prints in dainty script her assortment, with prices. The success of her work undoubtedly lies in the limitation which she puts upon it—she will take no more orders than she can fill herself, and each sandwich which leaves her hand is as perfect as if it were the only one. She finds a demand for her products throughout the year, plate sandwiches being one of her most frequent orders.

The fall campaign has closed. Senator Joseph Benson Foraker will be returned to Washington by the Legislature of this state and as predicted by the Times-Democrat several weeks ago, the Foraker knives in Allen county are being whetted for the dainty purpose of lifting the official scalp of postmaster George Hall. "It's a long lane that has no turn," said the Foraker boys in this county a few years ago when Senator Marcus A. Hanna, in the full blossom of his dictatorship, gently let a streak of daylight through Sam Fletcher's aspirations for the postmastership and handed that coveted piece of political pastry to Brer. Hall. The Foraker lads now believe they have about reached that long looked for turn in the lane and the following from the Cincinnati Enquirer will strengthen their hopes:

"The jig is up."
These were the words spoken by Senator Foraker yesterday afternoon when Samuel Fletcher, of Lima, Ohio, member of the State Central Committee, known all over the state as the "Old Swede," and who during the greater portion of his life has been one of the staunchest supporters the Senator has had in the senate, called to see him.

The words spoken by the Senator applied to political conditions in Ohio, and meant that Mr. Foraker would defend himself and his candidacy for re-election to the United States Senate against all comers, combinations and whatever other influences that might be brought to bear against him.

"I came to this city in answer to a letter received by me from Senator Foraker, to see him for a few minutes before he leaves for Washington, whither he will go in the morning," continued Mr. Fletcher.

It is, therefore, evident that, in spite of all reports to the contrary, there was no patch up of conditions with Hanna and Dick. Some years ago Fletcher was a candidate for the postmastership at Lima, and Senator Foraker stood behind him, and he was buried alive and almost driven out of politics by Senator Hanna and Chairman Dick, of the State Committee. Protests from Lima of an intensely personal nature were filed against him at Washington. This naturally enough caused Fletcher to have it in deep for the junior Senator and his lieutenant. This feeling never abated, and more than once the "Old Swede," who is a power in Allen county as well as Auglaize, Mercer, Van Wert, Putnam, Hardin, Logan and Hancock counties, cautioned Senator Foraker that in case he went into any kind of a deal with Hanna and Dick he would leave his camp. It was, therefore, the most natural thing in the world that, after the conference with Dick last Thursday, and he found that there would be no affiliations in the future and that Senator Hanna would not on any account loosen up his grasp on the patronage in this state, that he should send immediately for his old wheel horse and unboon to him at once.

It is easy to imagine the delight of Fletcher, who came at Senator Foraker's beck, but who also very badly desires to succeed postmaster Hall, of Lima, the gentleman who beat him to the job before.

"You can say in the Enquirer," said Mr. Fletcher, "that Ohio's senior Senator will defend himself, and will go it alone, and he will win, too."

The recent election is not so much a matter of the past as to be forgot in detail, and several close counties in the northwestern portion of the state were wheeled in line for Foraker by the "Old Swede." This is a matter of history, and on the theory that there are no friends like the old friends Senator Foraker sent for Fletcher, whose presence in Cincinnati was kept a secret from his fellows at Lima, as well as the politicians of this city. In other words, it was a secret meeting,

and the fight is now on between Foraker and all who may choose to oppose him. Just what the immediate programme is but few know, and just when the first gun will be fired is hard to say, but that the battle is on is now evident, and it will be a fight to a finish between these two powerful leaders in the Ohio Republican party.

REVIVAL

Services at the Wayne Street
Church of Christ.

There was a packed house again at the Wayne street church of Christ revival services last evening. Great interest is being made manifest in these services and most excellent meetings are being held. The quartette sang nicely last night and the choir rendered some excellent music. One addition received at the morning service. The subject for tonight's discourse will be "Faith. What it is and How to Get it."

BETTER

Than Before Will be the
Minstrels

To be Reproduced by the
Buffalo Lodge.

Special Engagement of Horace
Merrymon, Black-face Com-
edian of Balti-
more, Md.

Tomorrow night the Buffaloes will repeat the minstrel performance that made such a decided hit on the first of the month and all those who have tickets that were not used before will be admitted, the object in producing the show the second time being to accommodate those who were unable to get seats before. Some decided changes have been made in the old program, new features being added so that any who attended the last performance can go again with the assurance that there will be enough of a variation to relieve the monotony.

Particular attention is called to the appearance on Tuesday evening of Horace Merrymon, of Baltimore, Md., who is a professional black-face comedian, buck and wing dancer and monologue artist. Mr. Merrymon has located in Lima, where he will go into business and he has shown that his work in his especial line on the stage is sure to be appreciated by all who attend the Buffalo minstrel tomorrow evening.

There will be new songs and jokes introduced in the first part and also new specialties in the olio, so that the entertainment is well deserving of patronage whether seen for the first or second time. The price of admission remains the same, 25 cents, and tickets can be purchased from any member of the lodge.

CASH

And Smokers were
Stolen

By the Burglar

Who Visited the Borges
Residence.

He Gained an Easy Entrance
Through an Unfastened
Window

And Escaped Without Leaving Be-
hind any Clues That are Likely
to Lead to the Discovery
of His Identity.

The capture and arraignment of Charley Williams, the colored man who was identified as the burglar who robbed the residence of William Lightner on north Pine street, has not put an end to the burglaries but has proved conclusively that Williams, if guilty, and there is very strong evidence against him, is not the only burglar who finds Lima a prolific field in which to operate. Saturday night another burglary occurred and this time the residence of F. G. Borges, at 603 west Spring street, was the place visited. Saturday, the windows on the lower floor of the Borges residence were cleaned and one of them was, by some oversight, left unfastened, and the robber had an easy time gaining an entrance. Sunday morning Mr. Borges discovered that the house had been entered and that \$1.12 in cash and a few cigars had been stolen. It is believed that the burglar was frightened away before his work was finished to his own satisfaction for no other articles of value have been missed from the house. The police were notified but there is no clue to the identity of the thief.

George Nelson, a well known colored man is a prisoner at the police station awaiting arraignment on a charge of stealing a chicken from Charley's grocery store on east High street. Nelson was arrested at 1:30 o'clock Sunday morning by officers Patton and Gardner.

A man giving his name as Thomas McCloskey was arrested at 3:15 o'clock Sunday morning for having created a disturbance in a saloon and restaurant on east Market street by throwing beer bottles at every person in sight. He has been fined \$5 and the costs of prosecution.
